

ECONOMIC DEVELOPMENT AD HOC WORKING GROUP

MEMBERSHIP

The purpose of the I-15 Interregional Planning (IRP) Economic Development Ad Hoc Working Group is to provide stakeholder input and feedback for the implementation of an employment cluster study component of Phase II of the I-15 IRP. The study is intended to lead to development of joint strategies to promote and support the expansion of employment clusters in the two-county region and to identify specific areas in which the two regions should coordinate infrastructure planning and public policy to support the growth of these common clusters. There is no existing working group or committee that can perform this function.

The Working Group meets monthly on the second Thursday in Temecula from 2 p.m. to 3:30 p.m. Locations are subject to availability of space, but the meeting is usually held at Temecula City Hall.
